***Village Foreman Report:*** Water main break by the hall started with a crack. When the Noble Street water break happened, the storm sewer line was affected. Still has to fix the storm sewer line. At the Noble Street location, the water line was 10 feet down. A saddle was put on the line as the main split about a foot. Three valves were dug out to isolate the line on Nobleford Street. Foreman Coulter turned on the fire pump at the water plant to reduce the pressure. Replaced a meter at one residence and had a couple of small breaks at other places. Snow removal on going.

***Administrator Report:*** Had Civic Solutions in to begin the 2017 Tangible Capital Asset reporting in preparation for the 2017 audit. Telus was called to fix the fax machine line as there was no dial tone. Councillor Tarditi had

*New Business:*

- a. **Nobleford Water Treatment Plant Reservoir**  
Nobleford needs to increase the treated water storage as there is not sufficient capacity for all user groups (Barons, County and Nobleford) during peak usage times. Nobleford applied for funding for the project and was able to obtain a 50/50 grant. The total project cost is \$869,000.00 to which \$434,500.00 is grant funded. That leaves \$434,500.00 to be funded amongst the users. Barons share of this project would be approximately \$35,000.00. The other alternative would be that Barons share of the cost could be reflected in the water rates.

**Motion made by Councillor Tarditi to not invest in Nobleford's treated water storage and have Baron's share of the upgrade be reflected in the cost of treated water. Carried**
